

## **Together Pharma and Premier Dead Sea Begin Manufacturing Cosmetic Products Mixing Dead Sea Minerals with CBD**

**The companies are targeting markets in which CBD is legal and does not require a doctor's prescription including Canada and European countries, and the products that will be marketed are therapeutic oil, ointment for easing pains, and multi-purpose cream.**

**Ashkelon, January 2, 2019 – Together (TASE: TGDR), which specializes in cultivating and producing medical cannabis,** has reported the start of manufacturing of cosmetic products by 'Premier Dead Sea,' the leading Israeli developer and manufacturer of cosmetic products based on Dead Sea minerals, which will include CBD (the natural Cannabidiol extract produced from the cannabis plant, to which science attributes a range of key therapeutic influences).

Manufacturing will focus on three products: therapeutic oil; ointment for easing pains and multi-purpose cream.

The company plans to market the products in countries where the sale of CBD extracts are legal and do not require a doctor's prescription including Canada and many European countries and where there is commercial success, products will go into serial production and marketing at Premier's points-of-sale in those countries,

Together CEO Nissim Bracha: "The start of manufacturing of CBD-based cosmetic products by Premier represents the realization of our business strategy for creating cash flow in tangential areas of activity to the company's main area of activity. Science attributes a range of beneficial characteristics to CBD for various illnesses due to substances that are anti-inflammatory, anti-bacterial, antioxidants and anti-ageing. We are convinced that Premier, which is a leading and experienced player, with global outlets, will lead the marketing of the products in the first half of 2019 with the aim of achieving serial production of CBD-based products."

### **About Together and Globus Pharma**

Together (TASE: TGTR) operates in the medical cannabis sector through its subsidiary Globus Pharma, which is currently setting up an advanced agricultural and technological infrastructure for cultivating, producing and marketing medical cannabis in Israel and abroad. The company has marketing and distribution agreements with leading companies in the medical cannabis

sector in Germany and Canada amounting to an overall 80 tons of produce annually. Together Pharma has a team of experts in cultivating cannabis with more than 20 years of knowhow and practical experience in cultivating medical cannabis. The company is in advanced stages of receiving marketing approval in Germany and the entire European market, including submitting a request to receive a European permit for exporting medical cannabis products and receiving a license to distribute them throughout Europe.
